

Fine Surgical Instruments

the right products  
in the right hands  
at the right price

To provide our customers with the service and expertise they would expect from a manufacturer of such critically important products used in the day-to-day running of their clinical department.

# what makes Unisurge different?

Established in 1988, Unisurge is a trusted manufacturer and supplier of practitioner-specified procedure packs, dressing packs, medical disposable and theatre products to health care professionals. Our range of bespoke single use products is both cost effective and patient specific. Surgical teams can be confident that all the necessary components for a procedure will be supplied, to their specification, in a sterile pack, ready for immediate use.

## Our promise to you:

Experienced sales team ready to take your order and advise you on delivery times and other Unisurge products – we aim to surpass all the standards of your current service.

Innovative products constantly being introduced to increase your purchasing efficiency.

A comprehensive range of products always kept in stock ready for fast-track delivery to your door.

Regular deliveries throughout the UK.

**All at the most cost effective prices.**

# our commitment to you...

From our Newmarket headquarters, the development team keeps abreast of the latest advances in surgical practice and takes full account of the consistent rise in patient expectations.

Unisurge offers a comprehensive range of theatre quality surgical instruments. They are available as re-usable as well as single-use products. These include individual supplementary instruments, instrument sets and instruments that can be supplied as part of a sterile procedure pack which can include all the components for any surgical procedure regardless of the speciality. The contents of each of our packs can be practitioner specified to meet the requirement of all modern surgical procedures including drapes and gowns.

Linked to a significant investment in state of the art information technology, we provide a proven and trusted distribution network. Using our own fleet of vehicles, Unisurge is able to ensure that sterile packs arrive at their destination on time and in optimum condition.

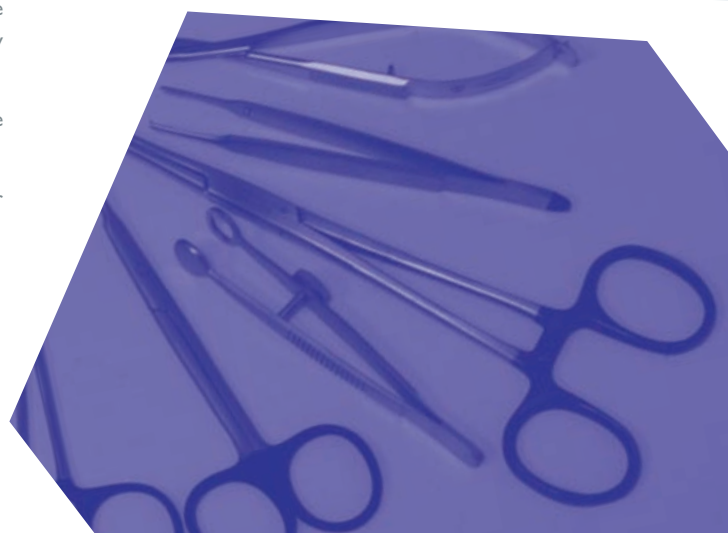

**Our aim is to tailor our service to suit your specific needs  
and quite simply surpass the expectations you place upon us.**

## Signature Instruments...

A comprehensive range of instruments that have been manufactured and hand finished by craftsmen. There might be slight variations in the dimensions of an instrument from those given in the descriptions however, the instruments are inspected to ensure that any variations are within agreed tolerances. Unisurge operates active Quality Control / Assurance to fully comply with the regulatory requirements.

All instruments are manufactured from stainless steel and have been finished to the highest standards.

Unisurge is committed to achieving full compliance relating to quality and labour standards.

# needle holder features and benefits

Tips are uniformly smooth and carefully rounded to avoid catching

Jaw serrations are precision cut. The diamond mesh enables a firm grip

Box joint is thoroughly cleaned and polished for a smooth closure

Satin finish for reduced glare

Shanks are slim and light weight

Each instrument is marked with a code number for more convenient re-ordering

Finger rings are generously proportioned and subtly shaped for maximum comfort and balance

Black handles remind you that these are the very best quality single-use instruments

# scissors

## features and benefits

Tips are either pointed or rounded

Edges are precision ground to ensure an even cut every time

Screw joint surfaces are polished for excellent cutting action

Satin finish for reduced glare

Shanks are slim and lightweight

Each instrument is marked with a code number for more convenient re-ordering

Finger rings are generously proportioned and subtly shaped for maximum comfort and balance

Black handles remind you that these are the very best quality single-use instruments

# forceps

## features and benefits

Tips are uniformly smooth and carefully rounded to avoid catching

Box joint is thoroughly cleaned and polished for a smooth closure

Satin finish for reduced glare

Shanks are slim and lightweight

Each instrument is marked with a code number for more convenient re-ordering

Finger rings are generously proportioned and subtly shaped for maximum comfort and balance

Black handles remind you that these are the very best quality single-use instruments

# retractor

## features and benefits

All retractors have smooth rounded edges (except teeth where sharp) optimally sized for surgical access

Ratchet joint for fine finger control allowing acute placement of jaws with a locking mechanism

Satin finish for reduced glare

Each instrument is marked with a code number for more convenient re-ordering

Finger rings are generously proportioned and subtly shaped for maximum comfort and balance

Black handles remind you that these are the very best quality single-use instruments

 Signature™

# laparoscopic scissors

## features and benefits

Tips are rounded

Edges are precision ground to ensure an even cut every time

Fully insulated to the working tip of the blade

Infinite rotational adjustment for optimum tip control

Ergonomic handles

Range of working lengths – 17, 33 & 44cm

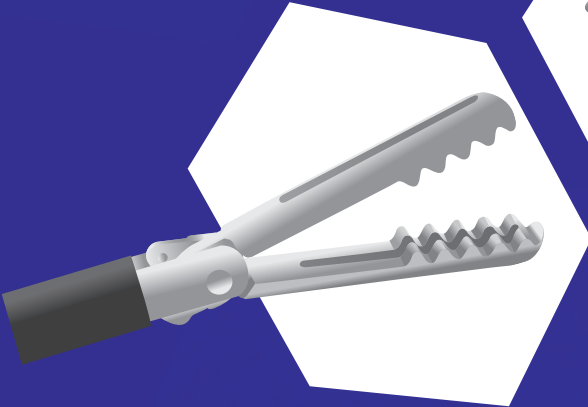

Universal bayonet connector

# laparoscopic graspers & dissectors

## features and benefits

Comprehensive range of jaw configurations

Available with and without ratchet

Graduated intelligent ratchet action

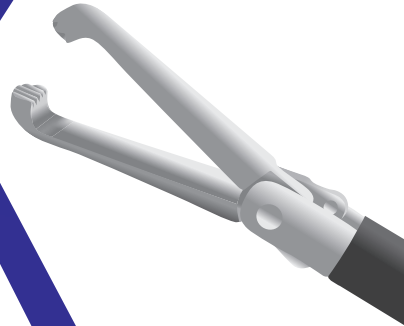

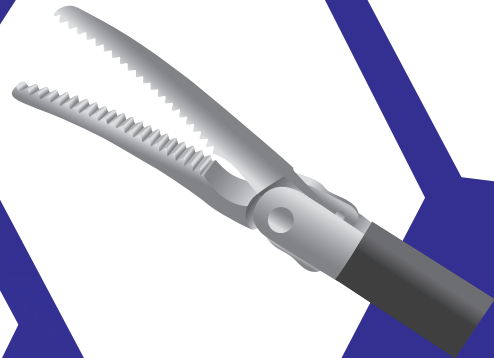

Fully insulated

Ergonomic handles

Infinite rotational adjustment for optimum tip control

Range of working lengths –  
17, 33 & 44cm

Universal bayonet connector
